

**PROTHESIS OR ORTHESIS FOR A MEMBER OF A HUMAN BODY**

5

ABSTRACT OF THE DISCLOSURE

10 A prosthesis or orthosis for a member of a human body,  
comprising limb-forming components which components are  
connected by pivoting couplings and at least one first  
element whose ends are coupled with components that are  
distinguishable from each other, wherein the first spring  
element spans at least two pivoting couplings.
